We are willing to hope Commercial-road, Blackfriage, now that this exceptional period is at an end, and first assumed a threatening that the time has come when we may rely hen the bells of St. Martin's more on those gentler political and social inte New Year the firmes were fluences which the opponents of the various

t forg. Two police officers Chinese wars have thought, perhaps erroneously, y in the neighbourhood, were to be applicable at all times. Our meaning is apol by a strong smell of this—that we have by physical force obtained amination they found a barge such an influence in China that there is reason tely under the centre of the to believe mand force will henceforth be sufefore assistance could be pro- ficient to do all that remains to be done. The the blazing barge, the flames results already mentioned abow that the old o the extensive wharf. This obstructive Chinese system is educible with eted over a short canal, and dermined, and that the progress of Enropean e Thames were louded and ideas until be more and more rapid with each divor of the warehouse, succeeding year. The exclusiveness which still contained which first ignited. remains is rather that of a weak and timid Go. the warehouse, could not vernment than of a bigoted people. By a vioand no trace of the vessel lent policy we are more likely to increase the hour after the fire was first prejudices of the people than to crush the opposi-wharf itself, an immense tion of the rulers. The arguments on either side oreys in height, was built in a of this question are ally set forth in two papers manner; and the outer walls published in the North China Herald of Nor. 9. bined efforts of fire and water. One is by Mr. Robert Hart, Inspector General a of the same block was Mr. of Chinese Cuctoms, a gentleman of the bare been built of fireproof of the Chinese Government. He maintains

which appeared to have been which his own appointment would seem to solid from; and at the height confirm. He admits that it is weak, and in this solid from; and at the height confirm. n each block of buildings was weakness be sees the cause of its undoubted bese doors were even to be red. jealousy of European influence. But he argues of the warehouse that a domineering policy on the part of Enb flour, guano, and oil; and repeate will only increase the evil; that the with such fury that the water strongthening of the Chinese Government will be the engines appeared to have an adraptage to all parties. He would not mastering the flames. In the have Europeans abacqute all influence over ght, there were no fewer than Chinese affairs, for he thinks that "to promise ngines at work pouring water not to force her to improve would be simply to emises, which presented one deprive Ultima of her greatest motive for atlanie, while from the Tunnies tempting what must end in progress -nainely, floats operated upon the river that feeling of insecurity, and that desire to ze of light was so great that the provide against contingencies which induce m Westminister Bridge to South- exertion." On the whole, he recommends a as lighted up. Roats filled with patient but firm policy, believing that the Goald be seen rowed to and fro in vernment is fairly in the path we desire, though urning warehouse, while crowds it may be advancing but slowly. He is ansacted to the spot from all parts wered, with much energy, by Mr. J. Ross ned the Thames Embankment, Browne, late United States' Minister at Pege and Blackfriero Bridge. The king, who thinks that all any nation has obbeight about twelve o'clock; and tained, or will obtain, must be by force, and te south side of the river, the that the only matter in which the Chinese Go-Pauls, a number of churches, verment shows any inclination to adopt the

blic buildings, were brillianly ideas of civilisation, is the construction of sreev the reflection in the sky hala and gunboats, with the express purpose of moment when the fire keeping out foreigners. the bells of several of the We are disposed to take the view of Mr.
